Professional Summary

Final-year Computer Science Engineering student with hands-on experience in full-stack development, AI-powered products, automation systems, and UI/UX design. Built scalable applications using React, Next.js, Node.js, MongoDB, and OpenAI APIs. Proven leadership in managing 15+ events and mentoring 350+ students. Strong communicator with product-building and problem-solving mindset.

Education

Gyan Ganga College of Technology

Bachelor of Technology in Computer Science Engineering

2022 – 2026

Jabalpur, India

Kendriya Vidyalaya No.2 G.C.F

Higher Secondary Education

Passout 2022

Jabalpur, India

Technical Skills

- **Operating Systems:** Linux, Windows, Android
- **Languages:** C, C++, Python, JavaScript, SQL
- **Web Designing:** HTML, CSS, Tailwind CSS, ReactJS
- **Scripting:** Python, JavaScript
- **Databases:** MongoDB, MySQL, Firebase
- **Frameworks:** ReactJS, Next.js, Bootstrap
- **CI/CD:** Git, GitHub, GitHub Actions
- **Automation Integration:** N8N, Make, Opal
- **UX Tools:** Figma, Framer, Canva

Experience

EOE Genuine

Junior Software Engineering Intern

May 2024 – Aug 2024

Jabalpur, India

- Developed and optimized software modules, improving performance and user experience across live projects.
- Collaborated with developers in debugging, testing, and feature deployment using modern workflows.

Gyan Ganga College of Technology

Content Writer

Aug 2023 – Aug 2024

Jabalpur, India

- Created high-impact content, newsletters, and promotional materials for institutional branding.
- Worked with teams on campaigns, improving communication and audience engagement.

Projects

Real-Time Chat Application | [React.js](#), [Node.js](#), [Express](#), [MongoDB](#)

- Built a scalable chat platform with secure authentication using Firebase Authentication.
- Integrated Socket.io for real-time messaging and deployed on Vercel for optimized performance.
- Designed responsive UI using Tailwind CSS.

Chemical Tracking System | [IoT](#), [AI](#), [Distributed Ledger Technology](#)

- Developed an end-to-end monitoring system for dual-use chemicals from manufacturing to export.
- Implemented IoT sensors and DLT for secure tamper-proof tracking.
- Reduced illegal diversion risks by 30% using AI anomaly detection and secure logging.

AI Mock Interview Platform | [React.js](#), [Next.js](#), [Node.js](#), [OpenAI](#)

- Created a full-stack AI-powered interview simulator for technical interview practice.
- Integrated real-time voice input/output for conversational interactions.
- Provided instant AI-generated feedback to improve candidate performance.

Certifications & Achievements

Certifications

- Programming Essentials in C
- Programming Essentials in C++
- UI/UX Design Essentials
- Figma Essentials
- Robotic Process Automation (RPA)

Achievements

- Mentored and taught 350+ students through workshops and technical sessions
- Led and managed 15+ technical/cultural college events successfully
- Built and deployed multiple full-stack web applications independently
